

## Solution for 2.2 Tiling (Answer = OXYMORON)

Fill in the given words to make sure they get the right points - there's only one way.

If you're stuck, "WAR" also makes the word "AR", "AJAR" and "SPITE" are played using

a blank at some point, and "PARADOX" also makes "UP"

The only word Chan could have made to get the required points is "OXYMORON"
